Profile Summary

Targeting entry-level **internships** or roles in **frontend**, **backend**, or **full-stack development** to apply and expand my skills in a dynamic environment.

Skilled in **Next.js**, **React.js**, **Node**, **Express.js**, and **Prisma ORM** with **practical** experience from **personal projects**. Experienced in development to deployment. Committed to **continuous learning**.

Projects

PayEase | Full-Stack Wallet Application

[GitHub](#)

[Live Demo](#)

- **Overview:** Built a secure, user-friendly wallet app enabling seamless **fund management**, including **adding and transferring money** between users.
- **Tech Stack:** TypeScript, Next.js, Express, Prisma ORM, Tailwind CSS, Turborepo, Aws(EC2).
- **Features:**
 - **Fund Addition:** Integrated a dummy bank webhook API to simulate realistic transactions.
 - **Money Transfer:** Enabled transfers via phone number for quick and convenient payments.
 - **Secure Transactions:** Used Prisma transactions to ensure atomicity and accuracy in fund movements.
 - **User Dashboard:** Provided a comprehensive view of all transactions, enhancing financial oversight.

Medium | Full-Stack Blogging Application

[GitHub](#)

[Live Demo](#)

- **Overview:** Developed a dynamic full-stack blogging platform featuring **user authentication**, content management, and a responsive, modern interface.
- **Tech Stack:** React, Express, PostgreSQL, Prisma ORM, Firebase Storage, Tailwind CSS.
- **Features:**
 - **CRUD Operations:** Full **create, read, update, delete** functionality for blog posts.
 - **Secure Access:** Restricted full blog access to **authenticated users** for enhanced security.
 - **Rich Text Editing:** Integrated **React Quill** for a seamless rich text editing experience.
 - **Search Functionality:** Implemented blog search, available exclusively to logged-in users.
 - **Author Profiles:** Created **author profiles** with editable bio and profile picture.
 - **User Dashboard:** Developed a dashboard for users to manage their created blogs.
